DETAILED ACTION

Allowable Subject Matter

1. Claims 7, 14, and 43-50 are allowed.
2. The following is an examiner's statement of reasons for allowance: the examiner is unaware of any prior art which suggests a semiconductor device with a memory transistor portion and a peripheral transistor portion which has high and low voltage regions having gate dielectrics with the specific nitrogen concentrations and the exact gate dielectric structure for the high voltage peripheral transistors as specified by the applicant.
3. Sakurai et al. (USPN 5,496,753) discloses a nonvolatile semiconductor memory device which also has a peripheral circuit portion. Sakurai discloses a means of using a nitride film which prevents unintended diffusion in the peripheral circuit portion but not the exact nitrogen concentrations of the memory and peripheral transistor portions or the exact gate dielectric structure of a peripheral transistor portion as specified by the applicant. Thus Sakurai does not teach the applicant's device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
